

KEWTECH

KEWPROVE

PRODUCT DATA SHEET

KEWPROVE

PROVING UNIT

- Outputs 690V AC/DC, using just two contact points for AC and DC
- Continuity test for fused test leads using a 4mm connector
- Magnetic base for convenience to mount on metal panels
- Makes a perfect partner to the KEW 1700 Voltage Tester

SPECIFICATIONS

Output voltage	230V into 15K Ω , 690V into 250K Ω
Lead continuity test current	10mA into 10 Ω
Operating conditions	-10 to 40°C, 70% RH
Dimensions	W65 x H120 x D45 mm
