## "Be aware of your energy consumption. Can you save energy and money?"

Anyone who consumes energy resources (electricity, water, gas, heat, etc) wants to make sure that it is used as efficient as possible.

With eviShine app, you will be able to follow your energy consumption. eviShine shows real time data, and stores it, so you can see historical data.

With eviShine you always have the latest figures at your fingertips, whether you are at home, at work or out and about. All you need is Internet access.

You can access your consumption data in various ways – on the web page you are given or via a free app for your iPhone or Android smartphone.

### Personal web page

Your personal web page will give you a fast, accurate picture of your energy consumption right now, and the possibility to see where you can save energy. You can also see your CO<sub>2</sub> footprint.

### Smartphone App

Download the **eviShine** app free from AppStore or Google Play. If you don't already have a system with eviShine, try scanning the QR code below to see a system in operation.
